

INTERNATIONAL EGG AND POULTRY REVIEW

U.S. Department of Agriculture Agricultural Marketing Service Poultry Programs Market News and Analysis Branch

U.S. Egg and Egg Product Exports

Total U.S. exports of shell eggs are up 3,140,528 (25%) dozen in January - March 2011 when compared to the same time period in 2010.

Total U.S. exports of liquid and frozen egg products is unchanged in January - March 2011 when compared to the same time period in 2010.

Total U.S. exports of dried egg products is up 1113.9 (27%) metric tons in January - March 2011 when compared to the same time period in 2010.

Most of the increases in exports in 2011 can be attributed to increased demand in Japan to make up for production lost due to the earthquake and tsunami earlier this year.

U.S. shell egg production that is distributed into export channels is broken down on the remainder of this page by type and quantity by month 2009 - 2011.

NATIONAL MECHANICALLY SEPARATED CHICKEN

(F.O.B. Shipper Dock or equiv., negotiated prices in trucklot and less-than-trucklot volumes reported in thousand lb quantities, cents/lb; delivery within 2 weeks.)

MSC prices continue to trend steady to firm for all fat contents. Supplies are light to moderate. Schedules are noted as normal to less than normal due to the Memorial Day holiday weekend. Demand into domestic and export channels was moderate to good with most interest centering on fresh and frozen 15-20%. Market activity was moderate to active. Supplies of raw materials are tight. Frame values were firm with limited trading occurring between 11-14.5 cents FOB.
